**Notes to the Covers Price List
for Ercol Furniture**

1. Ercol Jubilee

This model was originally made with 'velcro' fastening for the straps. It is our practice to replace these with studs, which are more secure. If you would rather we used velcro, please write 'use velcro fastenings' on the order form.

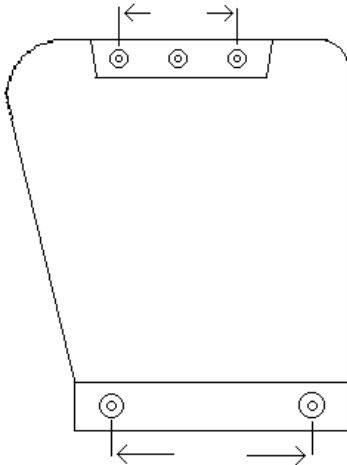

Jubilee 2-Seat Settee Back Cushions

Ercol have produced this model with different sizes of back cushion. Please let us know the measurement through the top line of buttons seam to seam as shown in the illustration on the left. This will enable us to identify which model you have.

Please note: Earlier versions of this model had seven buttons, but the newer version (shown) has five - three in the top row and two in the bottom.

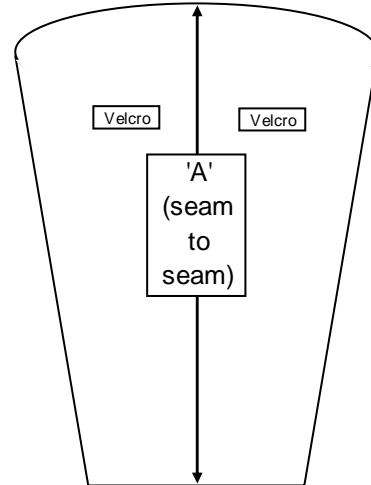

The Measurement is
Please return this sheet with your order.

2. Ercol Evergreen and Springtime Arm Cushions

Ercol have altered the sizes of the Arm Cushions and the position of the studs on the Evergreen and Springtime models, please complete the measurements on this illustration on the left and return this sheet when placing your order, measuring between both sets of studs as indicated.

3. 913, 914 & 835 Back cushion sizes

For 913 model 'A' = 32½" (82.5 Cms)
For 914 model 'A' = 26" (66 Cms)

The 835 and 913 have the same back cushion but the seat cushions are different:
For 835 Seat back to front = 17¾" (45 Cms)
For 913 Seat back to front = 18¾" (47½ Cms)

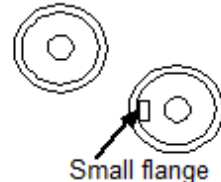

4. Saville and Sunningdale Suites Model Nos. 850 and 930

There are two different types of press studs holding the seat cushions to the back of the chair frames.

TYPE A Older models have a simple press stud that is easy to press on and off, unfortunately these come adrift too easily.

TYPE B Later versions of these suites have military or locking type press studs, that are difficult to pull off accidentally, and like the lid of a teapot can only be put on and taken off one way. To open the stud lift the short tab end of the strap. To fit the press stud on, place your thumb on the stud with the first two fingers under the tab end, press the thumb down first keeping the tab end up at an angle then push flat.

Type 'A' Standard studs:

or

Type 'B' Locking studs:

Please state which type of studs are fitted to your furniture when ordering.

To fit covers to the Saville/Sunningdale suite the base must be removed by undoing the screws. Please note covers for the 930 series Saville have a stitched edge as the original.

5. One clear difference between the 415 and 478 model, is that the 415 back cushion has four studded straps, and the 478 only has two.

6. 355 Studio Couch: The seat cushion on this model is wider than the fabric width therefore the seat cushion will be made with two seams. The only exceptions are the following fabrics which are used across the width (run): Rosemoor, Vienna, Belmont, Lyon, Norwich

7. York Minster Suite: The 'old' version of the suite has a lumbar support which the 'new version does not. With the new version, scatter cushion covers are included as part of the Cover.

8. Salisbury Suite: Covers for the Salisbury suite can be supplied with or without decorative stitching on the backs. Prices shown are without stitching. If you would like stitching please add £57 per chair and £97 for the 3-seater settee. £77 for the 2 Seat settee.

9. When ordering covers for the CLOISTER (932) and YORK MINSTER (881) models please ensure you Order for the correct model.
The frames for both models are the same, but the cushions are different. The distinguishing features are that the

10. Please advise whether the cushion is held onto the frame by Velcro straps or completely loose.

11. These stools are the same, except the 851 model has a solid base, whilst the 898 model base is slatted.

12. Please advise whether the corners of your cushions are square or slightly rounded.

13. Please advise the lengths of straps on the seat & back cushions from seam to centre stud.

**14. We will require to collect one seat, back and arm cover.
The covers are with us for 3 days and then returned back to you by parcellforce.**

15. Wing interiors for the Cloister Range are part of the back cushion interior.

**16. Bergere 1500 Series the back cushion sits behind the seat cushion.
Bergere 1600 Series the back cushion sits on top of the seat cushion, and there is an internal fly in the back cushion.**

**17. Please note we can only offer Bespoke Covers for this model.
This will necessitate us collecting your furniture itself into our workshop
(Please note: this service is only available in our collection area which is Mainland England South of Leeds), tailoring and fitting the cover, and returning it to you. The process takes about 2 Weeks , and we can offer loan furniture while yours is away.**

Replacement Seat & Back Cushion Interior information for Ercol Furniture

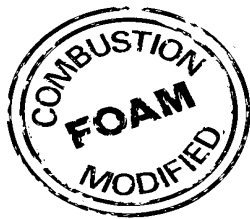

Replacement Interiors for Seat and Back Cushions can transform your Chairs or Settees both in appearance and comfort. It is however, essential that the replacements match the dimensions of the original interiors. They must be shaped correctly, and if necessary, domed. They must also have the right density of foam to give correct posture support. It is therefore important when ordering to quote the Manufacturer's Number or Name of the furniture for which they are required.

Interiors ordered with Covers

When Cushion Interiors are ordered with Covers, the covers will be fitted onto the interiors.

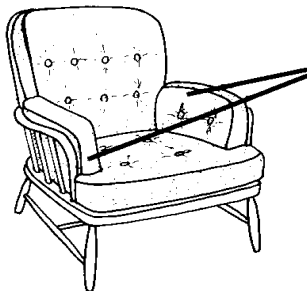

If the cushions are buttoned, we will also DEEP BUTTON the cushion for you.

If you do not want the Covers fitted or buttoned (if appropriate) please note this on the order form.

All Lynplan Cushion

Interiors are fabricated from Combustion Modified Foam which gives a significant increase in the safety of your furniture when used to replace old style Polyether foams.

Pattern Matching:

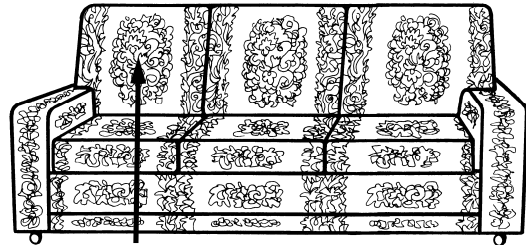

The illustrations show how different types of fabrics are cut for your furniture. If you require any fabric to be treated in an alternative way to that stated, please contact our sales office for a quotation.

Please Note: patterns are always matched across seams on settees on outside backs and front lips etc.

Matched Fabric Pattern

Each pattern element appears in the same place on the relevant pieces. (Note how this differs from a centralised pattern).

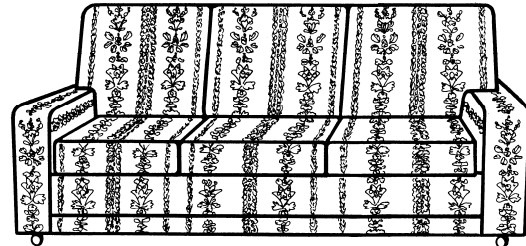

Centralised Fabric Pattern

A dominant element in the design such as a flower or bouquet is centralised on each relevant piece of the furniture.

Random Fabric Pattern

Where the elements of the pattern have equal 'weight' in the design, the pieces are cut at random.

Vertical Fabric Pattern

Where the design has a strong vertical element such as a stripe, this is continued from the back, down the seat, front border and front lip.

+ Pile & Chenille Fabrics. The characteristics of this type of cloth sometimes cause it to mark and crease in normal everyday use. However, these marks will disappear if lightly brushed in the direction of the pile and left in a warm atmosphere for a short time. If the atmosphere of your room is dry (because of double glazing) the fabric may take longer to recover.

Pimlico Fabric - please note this fabric is not suitable for covers with valances.

All fabrics are match resistant and conform to the Furniture and Furnishings (Fire) (Safety) Regulations for Loose/Tailored Covers and Upholstery.

Fabric width: Minimum of 135Cms (53").

The labels on the fabric samples are attached to the back of the fabric.

Please Note: Fabrics always vary slightly in shade from batch to batch. If a precise shade is critical, please ask for a stock cutting when ordering, otherwise it can be assumed the samples give a fair representation of shade.
